West Virginia Miners Assume a Threatening Attitude.

MAY ATTACK VIRGINIA MINERS.

The Latter Have No Grievance, but the West Virginians Want a "Sympathy Strike"-Ranks of the Olneyville Strikers Growing-Strikes in Other Places.

BLUEFIELD, W. Va., May 2.—The strike is on in the West Virginia coal fields along the Norfolk and Western railroad. Not a mine is in operation. A meeting of 15.-900 miners was held at Keystone yesterday to organize and perfect measures to induce or force the Pocahontas men to join the

A delegation was appointed for that purpose. No dissatisfaction exists among these Virginia miners, as they have not been cut. In the event of a refusal to join the strike force doubtless will be at tempted, and both sides are determined, The citizens of Pocahontas will aid the home miners, and they have ample arms and ammunition. The West Virginia miners are swarming into Virginia on every train and the situation is alarming. No shipments of coal are being made at Bluefield. The cut of 20 per cent, in wages was never contemplated by the Virginia companies, and there are only a few union men among their men.

In the event of trouble at Pocahontas the Virginia miners only number 900 against 10,000 in West Virginia, and resistance could not long last. Bloodshed will only be averted by caution and conciliation. The miners understand they have the support of the operators in all peaceable ways to adjust their troubles. The railroad at important points is being guarded, and Superintendent Maher, of the Pocahontas division of the Norfolk and Western, and Captain McClelland and General Superintendent Hippe, of Roanoke, spent yesterday among the coal fields. Business is partially paralyzed, and many miners are leaving for their homes. An outbreak may occur at any time. The strike is understood to be practically to adjust railroad rates on shipments.

#### Olneyville's Striking Mill Workers.

PROVIDENCE, May 2 .- Additions to the ranks of the strikers at Olneyville bring the number now out to over 8,000, the operatives of the Taft & Weeden mill and 250 operatives from the Riverside mill having struck yesterday afternoon. The primal cause of the general strike is given out as the failure of the manufacturers to restore the reduction in Wages made over a year ago. The strikers declare that they are prepared to stay out as long as the manufacturers hold together. It is expected that the operatives in the Saxon, Saranac and the remaining employes in the Riverside mills will come out this evening. The Atlantic mill strikers went to the mills in a body and awaited for James Whipple, one of their number who went back to the dve statement,

Louse to work, to come out. When he appeared they followed him and hooted at him for several blocks, but no violence was attempted.

Strikers Acting Independently,

ELEBORN, W. Va., May 2.-While all Ohio miners are out, awaiting an agreement on the new scale, there are other conditions here than that of the scale Owing to local feeling the strikers are getting beyond the control of the repre sentatives of the union mine workers. Guards are on the tipples and drift mouths, railway trestles and bridges. The miners at the Houston works have resumed work, but there are still 1,000 out There are prospects of a general resump tion tomorrow.

Striking for Increased Wages.

JANESVILLE, Wis., May 2.—Three hundred employes of the Janesville Cotton company struck yesterday because the company would not restore wages which were cut 10 per cent. two years ago. The manager says the mills will probably be closed indefinitely.

Demanding Signatures to the Scale. STEUBENVILLE, O., May 2 .- The miners

in Yorkville and Wheeling and Lake Erie mines, numbering nearly 2,000, went on strike yesterday pending the signing of the scale, which should have been adjusted a month ago.

Loused the Wrath of Commoners.

LONDON, May 2.- During the debate in the house of commons on the bill to prevent false statements being made against candidates at parliamentary elections Mr. Henry Labouchere, the Radical leader, began a speech by saying that he had hoped to find the house debating a woman's suffrage bill. At this a lady in the gallery loudly applauded, and thereby called down upon herself the wrath of the house. An cider was given for her immediate expulsion, which was promptly carried out.

#### A Tatal Game of Cards.

PHILADELPHIA, May 2.—Vincenzo Cello died in the Pennsylvania hospital last night in consequence of injuries received in a quarrel with John Spallelli over a game of cards at Seventh and Bainbridge streets. Spallelli's life is despaired of. Cello had a razor and Spallelli a dirk, and they slashed each other unmercifully. Cello's skull was fractured, and Spallelli's condition is due to loss of blood from many wounds.

More Damaging Evidence Against Durant. SAN FRANCISCO, May 2.-The inquest on the body of Blanche Lamont occupied less than three hours yesterday, but the evidence developed was considered convincing, and the jury returned a verdict charg ing Theodore Durant with the murder Martin Quinlan, an attorney, gave direct and positive testimony that he saw Durant and a girl tallying exactly with the description of Blanche Lamont walking towards the church, and only a few yards distant, at 4:15 o'clock on the afternoon she disappeared. A man named Clarke, who was with Quinlan, corroborated his

#### PENNSYLVANIA LEGISLATURE.

Bill to Suppress the Liquor Traffic on Memorial Day Nearly Defeated.

HARRISBURG. May 2.—The bill to prohibit the sale or gift of intoxicating liquers on Memorial Day narrowly escaped defeat in the house yesterday. This measure has been before the legislature since the session of 1883 and has always provoked a long and spirited discussion. Two years ago it passed the house and was killed in the senate. The old soldiers are divided on the question. Some contend that such a law is unnecessary and would be an insult to their comrades. Others claim that Memorial Day ought to be made as sacred as the Sabbath, and that such a measure is needed to bring about this change. After a heated debate a mo-tion to indefinitely postpone was defeated and the bill laid aside for future consid-

The Bell telephone won a decisive victory in the house at the morning session by blocking the passage of the Grigsby bill regulating the charges of telephone companies. The measure fixes the rate of charges at \$30 a year for private residences and \$38 for business bouses. A motion to postpone for the present was carried. This practically means the death of the bill, as is is not likely to reach the senate at this late period of the session, even if it should pass the house.

Bills creating the office of deputy auditor general were postponed for a week on account of the slim attendance. The bill prescribing regulations by which owners of improved or inclosed lands may pro hibit-bunding or fishing upon such lands was defeated.

Governor Hastings sent to the senate a number of nominations which were very promptly confirmed, including the following: Commissioners of the board of charities, J. W. C. Onal of Gettysburg, George I. McLeod of Philadelphia. Francis J. Torrance of Pittsburg, William B. Lamberton of Harrisburg and Charles Miller of Franklin, Venaugo county, clerk of the court of quarter sessions of Philadelphia, William B. Ahern.

Among bills passed finally were: To prevent perpetual building restrictions on real estate: to authorize the discontinuance of the use of schoolhouses for election purposes; to create a new state nor mal school district, to be composed of Montgomery and Bucks; house bill to prohibit the capture or killing for sale of quail. Virginia partridge or ruffled grouse. The house amendments to the "greater Pittsburg" bills were concurred in, and the measures now go to the governor.

LONDON, May 2 .- In the Old Bailey court yesterday Justice Charles summed up the case against Oscar Wilde and Al fred Taylor, accused of serious misdemeanors. At 1:3) the case was given to the jury, and at 3:45 they returned to the

The Penrose Resolutions Postponed.

HARRISBURG, May 2.—The senate judiciary general committee has postponed action on the resolution to "Lexow" Philadelphia until next Tuesday night. The committee held a meeting yesterday afternoon to hear representatives of the Municipal League and the Citizen's Municipal association in support of the resolution, and then adjourned until Tuesday, when City Controller Thompson, Mayor Warwick, ex-Mayor Stuart and Thomas L. Hicks will be heard in opposition.

### Cutaiar Committed for Trial.

PHILADELPHIA, May 2 —The inquest on the skeleton of Johanna Logue, which was found buried under the floor of a house on Eleventh street in October, 1893, was held yesterday. The main witness was Jimmy Logue, the notocious burglar and husband of the dead woman. At the conclusion of the testimony Alphonso F. Cutaiar, Jr., he nephew of the murdered woman, was committed to jail to await trial on a charge of murder.

#### Condemning the Administration.

ALBANY, May 2 -Resolutions in condemnation of the administration at Washington for its inaction in regard to the scizure of Corinto, Nicaragua, were adopted by the assembly yesterday under suspension of the rules, the vote standing 91 nyes to 15 nays, one Democrat voting with the Republican majority. The resolutions were offered by Representative Ainsworth, the Republican leader in the assembly.

## GENERAL NEWTON DEAD.

A Virginian Who Rendered Signal Service in the Civil War.

HIS CREAT ENGINEERING FEAT.

In Superintending the Destruction of the Dangerous Rocks in Hell Gate He Distinguished Himself as an Engineer and Added to His Fame as a Soldier.

NEW YORK, May 2.-General John New-

ton, after a long illness, died at his home, No. 40 West Seventy-fifth street, yester-General Newton has been ill since April 1 last. His death was due to chronic rheumatism. The funeral will be held on Saturday at St. Francis Xavier's church. General John Newton was a brave soldier, but he was best known to the world at large for his services in removing the rocks that from the earliest times rendered navigation dangerous in the channel of Hell Gate, as the strait connecting the East river at New York with Long Island sound is known. This gigantic work was begun in 1868 and was accomplished by honeycombing the rocks with tunnels and passages and then blowing the mass up

GENERAL JOHN NEWTON.

moved-Hallet's reef and Flood rockand the feat, one of the most difficult and daring in the history of civil engineering, was watched with the keenest interest by the entire civilized world. It could not be accomplished in a little time, and the first explosion did not occur till 1876. Its success was perfect, and General Newton won plaudits and honor from the scientific men and organizations of every country. It was not until Oct. 10, 1885, that the

second big blast was set off. It was quite assuccessful as the first and since then the once turbulent waters of Hell Gate have been as placid as a river, and the benefit to commerce has been almost incalculable. For this achievement General Newton was made a member of the National Academy of Science and an honorary member of the American Society of Civil Engineers,

John Newton was born in Norfolk Aug. 24, 1823. He was graduated from the military academy at West Point in 1842 and stood second in his class—a notable one for it included William S. Rosecrans, John Pope, James Longstreet, Henry L. Enstis and others who were scarcely less emment in after years. From 1342 to 1844 he was assistant professor of engineering at West Point and was promoted into the engineer corps as second Heatenant, During 1858. he was chief engineer of the Utah expedition, but for the remainder of the time until 1860 he was engaged in the construction of fortifications and other engineering works along the Atlantic and gulf coasts, having in the meantime, July 1, 1855,

reached the rank of captain. When the civil war broke out be was chief engineer of the department of Pennsylvania. Then he held a similar appoint ment in the department of the Shenandoah, and from August, 1861, till March. 1862, was assistant engineer in the construction of the defense in Washington. In August, 1861, he was made major, and in September of the same year brigadier general of volunteers. In December, 1865, he was brevetted major general of the regular army. His commands and services during the civil way may be summarized as follows:

In McClellan's campaign of 1862 he comnanded a brigade and fought at Gaines Mill and Glendale, South Mountain and Antieram, for the latter receiving the brevet of lieutenant colonel in 1882. He commanded a division at Fredericksburg and also at Gettysburg, and received the brevet of colonel in 1863 for his services during the latter engagement. He was in command of the First corps from July to December, 1853, and the second division of the Fourth corps during the invasion of Georgia from May to September, 4864. He was engaged at Rocky Faced Ridge, Resaca, Dallas, Kenesaw, Peach Tree Creek and Jonesboro, and the siege and capture of Atlanta. From October, 1864, to June. 1865, he was in command of the district of Key West and Dry Tortugas. For his services at Atlanta and Peach Tree Creek he was brevetted brigadier general, and at the close of the war major general of the United States army.

Besides his great engineering work at Hell Gate, he had much to do with the fortifleations in the vicinity of New York, the construction of the fort at Sandy Hook, etc. In 1879 he was advanced to the rank of colonel and in 1884 to be chief of engineers with the rank of brigadier general, Upon his retirement from the army he was made commissioner of public works of the city of New York by William R. Grace, then mayor. After his term of service in this office he was engaged in various engineering works of importance. In 1888 he was made president of the Panama Railroad company, and held that position up to the time of his death.

Last Stolen Money by Speculation. EAU CLAIRE, Wis., May 2.-Harry B. McMaster, assistant cashier of the Eau

Claire National bank, is an embezzler to the amount of \$25,000, and was arrested last evening. The stockholders here made up the shortage. It is claimed that Mc-Master lost the money speculating on the Chicago board of trade.

BATTLE WITH DESPERADOES.

They Make a Bold Dash for Liberty, but Are Captured.

St. Joseph, Mo., May 2 -For some days past a gang of tough characters have been hanging around St. George, a suburb of this city, and Tuesday night information was brought to the Burlington officials that the Omaha express was to be held up. William Hang, a hotel man, furnished the information, and the officers sent a posse, who frustrated the design. Last night while Richard Rau, an employe of Haag, was sitting in the barroom of Haag's place, Thomas Farrell, one of the gang, Stepped inside the door, while his partner who gives the name of Dan Howard, watched on the outside. Farrell stepped up to Rau and without a word shot him through the stomach, inflicting a fatal wound. As Farrell ran out the door he called to his partner. "I have shot the wrong man," realizing that he had failed to get the man who had given the information.

Several citizens started in pursuit of the two men, who ran out on the railroad tracks toward the Kansas bridge. A number of shots were fired by both parties, but without effect. As the fugitives neared the bridge ex Sheriff Carson and Officer Barry, who heard the firing, jumped into a buggy and gave chase, catching up with the two men just as they were leaving the Kansas end of the bridge. Carson covered Howard with a revolver and forced him to surrender. Officer Barry attempted to capture Farrell, who whipped out two revolvers and began firing, shooting the officer through the arm.

Then Farrell dashed into the woods, fol lowed by Barry and two other officers. Franz and Shea, who had arrived by this time, and a battle ensued during which over forty shots were fired. Farrell was finally shot through the left breast, the bullet passing through his lungs, and he is in a dying condition. Farrell is supposed to hall from St. Louis, while Howard's residence is so far unknown, as he refuses to talk.

Buchapan Again Respited.

ALBANY, May 2.—Yesterday afternoon Governor Morton granted a respite to Murderer Robert Buchanan until Wednesday, May 8. He took this action at the advice and request of Colonel John R. Fellows, district attorney of New York. The attorney general having decided that the appeal to the United States supreme court in the application for a writ of habeas corpus acted as a stay, the question as to the legal day upon which the murderer could be executed arose, and it was decided that a respite be granted so as to avoid a re-sentence by the court which originally sentenced him. District Attorney Fellows desired to avoid the necessity of such pro-ceedure. If the supreme court decides against Buchamut before that time the sentence will be executed on that day. If the case is not decided by that time the governor may issue another respite.

Ex-City Treasurer Charged with Theft. EAU CLAIRE, Wis., May 2.-Mayor Day last night caused the arrest of ex-City Treasurer Charles H. Green for embezzling city funds. The amount of the shortage is thought to be between \$24,000 and \$30,000. This, following the arrest of Assistant Cashier McMaster, of the Eau Claire National bank, has caused a tremendous sensation. Both are young men of the best families, and have lost heavily in specula-

Remorse and Attempted Suicide.

PHILADELPHIA, May 2.—Henry Vallett a native of Russia, shot himself in the left breast at blee Lehman House, 2019 Market street, and is dying at a hospital. ## SIX INSTANTLY KILLED

And a Number Injured, Some Fatally, by a Kansas Cyclone.

SWEPT EVERYTHING BEFORE IT

It Swept Over a Narrow Strip of Land for Sixteen Mites, Demolishing Every House in Its Path -Foresight Saves Many School Children.

Wichita, Kan., May 2.-A special from Halstead, Kan., says: About 4 o'clock yes serday afternoon a fearful eyelone devas tated a strip of country several hundred yards wide and at least sixteen miles in length, killing six persons outright and severely injuring several others, while many have received slight injuries. The cyclone struck the house of Mrs. Fry widow who lived about nine miles southwest of Halsted, completely destroying it and slightly injuring Mrs. Fry. It bloked up the house of John Schultzback and scattered it in every direction.

The fine two story house of Joseph Weir was entirely swept away, killing Mrs. Joseph Weir, Grace Weir, aged 11; Herman Welr, aged 5, and a 5-weeks old baby. Mr. Weir had previously left the house, and when the cyclone struck it was about fifty yards away. He clung to a tree, but was badly injured by flying debris, and will Joseph Weir, Jr., and his sister Maud Weir, the only ones in the family who took to the celler, escaped with only slight bruises.

The home of R. C. Caldwell, which was 100 yards to the west of the Weir home, was unroofed and one side torn away The family escaped by taking to the cellar. The next house in the path of the storm was William Armstrong's, which was completely wiped from the face of the earth. Mr. Armstrong was killed, Mrs. Armstrong seriously and perhaps fatally injured, and Grandina Chapin, who was there sick in hed, was killed. About a hundred yards east of the Armstrong house the large two story residence of B. E. Frizzel was picked up, as was also the large two story house of J. F. Frizzel, located just across the road, and both, together with the outbuildings, were completely swept away, leaving only enough debris to show that a house stood there. The families of both the Frizzels escaped injury with the exception of Mrs. J. F. Frizzel, who was considerably bruised

about the head. The next place visited was the home of Captain William White, which was only partly destroyed, one wing of the house being torn away. Across the road from White's the home of Cyrus Hinkston was entirely carried away. Mr. Hinkston received painful, but not serious injuries. Spencer Ross' house was in the line of the tornado, and was carried away, as were also the homes of A. S. Powell, J. A. Comas, Andrew Thompson and Menno Hege. Miss Daisy Neff, at Powell's house, was hadly injured, as was Mrs. J. Comas.

At the Hege district school the children had just been dismissed. Mr. Hege saw the storm approaching, and fearing its results hurried the scholars to his cyclone cellar. His foresightedness prevented an awful holocaust, for just as the last child had been safely stowed away in the cellar the cyclone struck the house over them and demolished it. As it was not one of them was even slightly injured. The fury of the storm seems to have done its worst about five miles west of Halstead, where all six of the persons were killed.

Those who first saw the disaster coming say it made very slow progress, traveling not faster than a person could run. It seemed to waver first in one direction, then in another. As far as heard from covering a distance of eighteen miles across the country from southwest to northwest, twenty residences, nearly all of them large ones, were completely destroyed. The loss will fall not less than \$200,000, besides the six deaths and the injured, two or three of whom will probably die.

Physicians from Wichita went to the relief of the injured and local assistance is given to the suffering families. Everybody in the track of the storm lost everything, and outside aid will probably have to be called for.

Price's Confession of Murder. DENTON, Md., May 2 .- In the trial of

Marshall E. Price for the murder of Sallia Dean, Detective Seibold, of Baltlmore, testified that Price said to him on the train when under arrest: "I want to tell you about the murder. I can't keep it any longer, for my heart is breaking. I did the deed." Price added, in answer to a query: 'So help me God, I did not criminally asshull her." The defense objected to the introduction of a type written copy of Price's confession of the murder made in Baltimore.

One Killed, One Dismembered. THENTON, May 2 .- Last night Andrew

Gromborg, agod 45, of 778 Eleventh avonue, together with an unknown man, jumped from a Pennsylvania raitroad freight train, upon which they had been stealing a ride, and started across the track at the Bridge street crossing. They were struck by a passenger train, which killed the unknown and cut off both of Gromborg's legs.

FORTUNE IN QUICK LUNCH.

A Famous New York Beanery Has Just Been Closed Up.

There has just been closed in New York a restaurant 7½ feet wide and 55 feet long that seats only 24 people, and vet has yielded its owner \$800,000. Many thousands know Dolan's coffee

house at 3 Park row. It was started in 1865, just before Barmun's museum, at Ann street and Broadway, was burned Dolan first discovered the value of the 'quick lunch' idea. His little restaurant became immediately popular. The highest priced dish was 20 cents for an oyster stew, and the whole bill of fare cost \$1.75, including two cups of coffee. The late Sojer Flynn was the only man who got away with the whole

The restaurant was never enlarged, and the prices were never changed. The receipts frequently exceeded \$2,000 a week, and in more than one year were above \$90,000. The place has been open continuously day and night except seven hours on Sunday. Once a barrel of sugar weighing 367 pounds was used in 36 hours just to sweeten tea and coffee.

Horace Greeley used to be a regular customer. Fo were Henry J. Raymond, Manton Marble and Superintendent Byrnes when he was a patrolman. Harry Howard used to swear by the coffee. Once four men representing \$12,000,000 sat at one table in the little earing house.

SILVER IN THE WEST.

People So Absorbed by the Question That Even Corpses Talk of It.

You may get an idea of the thoroughness with which the minds of the people one west are absorbed by the silver question from a story that Colonel Watterson is telling concerning the funeral of a distinguished advocate of the white metal that came off recently at Cripple

The whole town turned out to pay its respects to the memory of the deceased. whose demise was succrely mourned. The good preacher felt it devolved on him to make a long and impressive service. He talked for an even hour and a half before the final amen.

Just as this word left his mouth the corpse rose out of the coffin, pulled savagely at his hair and said, "All that talk and not one word about silver. '-Boston Herald.

TRILBY ON THE STAGE.

What the Dramatized Version of the Famous Novel Will Be Worth.

The financial aspect of the Trilby dramatization is one that will interest a great many people. It is understood that the manager of the play pays 10 per cent of the gross receipts in royaltres. It should play to more than \$5,-000 a week for many weeks to come, which would mean \$800 a week in royalties. Of this it is said that 30 per cent, or 3 per cent of the gross receipts, goes to Mr. Potter, 20 per cent to Har-per & Bros. and 50 per cent to Mr Du Manrier, the author of the book. There will soon be four companies on the road, each one paying similar royalties, and a conservative estimate of Mr. Potter's earnings from this play alone will be between \$1,100 and \$1,200 a week.—New York Sun.

Two Headed Calf.

Colemel Net Smith of Portsmouth, O., recently had one of the most marvelous animal freaks this country has ever produced. It is a two headed calf, perfectly formed. Aside from the peculiarity of a double head, the singular feature is that while one of the heads is the regulation calf head the other one bears a most striking resemblance to the human face and head, it being entirely devoid of hair and haveng all the features of an infant. The freak was born dead, and Mr. Smith took it to T. B. Blake, the taxidermist, in order to have it preserved if possible —Cincimati Enquirer.

MARVELOUS JENNY LIND.

Interesting Reminiscences of the "Swedish Nightingale."

Among the most interesting of those of whom John Addington Symonds gives reminiscences in his recently published autobiography is Mme. Jenny Lind Goldschmidt, of whom the image has faded away for the present generation, like that of all whose power was displayed on the ephemeral sphere of the stage. He gives a very charming account of this simple minded, gracious and womanly singer, who had the highest devotion to her art, saying, "I sing to God," and whose home life and manners were those of simple affection and womanliness. Jenny Lind had passed beyond the bloom of youth when Symonds saw her, and her marvelous voice was beginning to lose its power, but her artistic method was as pure as ever, and her expression as magical. The following is his impression of her singing:

"Mme. Goldschmidt came on second in 'On Mighty Pacans.' She was quite in black and looked to me an old, worn lady, with a large head and a small person. She wore no crinoline, and her dress, with its loose waist, reminded me of grandmamma's. At the first tones of her voice I quivered all over. It was not her wonderful execution, her pathos. varying expression, subtle inflexibility, that surprised me, but the pure timbre, which so vibrated and thrilled my very soul that tears came into my eyes. The volume of tone she threw out and then diminished to a whister, which permeated the room; the diminuendoes and crescendoes, the nightingale metallic strokes, brilliant accents and floods of swift, successive notes I expected, but I had not realized such quality of voice.

He gives a charming picture of the home of the Goldschmidts at Oak Lee, and this account of the aging cantatrice singing to ber bird is very graceful:

"A blackbird hung in a cage outside the door. Mme. Goldschmidt went up and talked to it 'Come, pretty bird, pretty, pretty little bird, do give us a little song. We want to hear you sing so much, you pretty, pretty little bird, in such a coaxing way that the bird, who had been shy at first, got down and came close to her and put its head on one side to listen. Then Mme. Goldschmidt sang to it roulades and long shakes and high, sharp notes which made the bird most inquisitive. But he continued silent until she turned to go, and then he gave a loud, shrill chirrup, as if to call her back."-Cincinnati Enquirer.

"Living Stones" of Falkland.

The most curious specimens of vegetable or plant life in existence are the so called "living stones" of the Falkland islands. Those islands are among the most cheerless spots in the world, being constantly subjected to a strong polar wind. In such a climate it is impossible for trees to grow erect, as they do in other countries, but nature has made amends by furnishing a supply of wood in the most curious shape imaginable. The visitor to the Falklands sees, scattered here and there, singular shaped blocks of what appears to be weather beaten and moss covered bowlders of various sizes. Attempt to turn one of these "bowlders" over and you will meet with a surprise, because the supposed stone is actually anchored by roots of great strength. In fact, you will find that you are fooling with one of the native trees. No other country in the world has such a peculiar "forest" growth, and it is said to be next to impossible to work the odd shaped blocks into fuel, because it is perfectly devoid of "grain," and appears to be nothing but a twisted mass of woody fibers .-St. Louis Republic.

Soda Propelled Engines.

A fireless locomotive engine was recently used on the Aix-la-Chapelle Julich railway. The motor power is derived from soda. The invention is based on the principle that solutions of caustic soda, which have high boiling points, liberate heat while absorbing steam. These engines eject neither smoke nor steam and work noiselessly. Compared with coal burning locomotives, soda engines show a capacity equal to the former, while they are worked with greater ease and simplicity.

SPANISH OFFICER EXECUTED. Lieutenant Gallego Shot for Cowardice in

a Fortress at Havana. HAVANA, May 2.-Lieutenant Valentine Gallego, who surrendered fifty Spanish soldiers to the rebels and who was afterwards captured and turned over to the military authorities here, was, after trial by court martial, sentenced to be shot. This sentence was carried out yesterday in the fortress of Cabana here. Lieutenant Valentin Gallego should not be confounded with Lieutenant Benjamin Gallego, of the Pennaular regiment, who was recently tried by court martial and shot at Santiago de Cuba for allowing the rebels to surprise him in a saloon at Jura-

In approving the sentence of the court martial which condemned Lieutenant Valratin Gallego to death, Captain General Martinez de Campos issued a proclamation in which he said that it was the first time in the history of his military life that he had known a Spanish officer to be executed as a coward.

Lieutenant Valentin Gallego's execution was conducted with the usual military ceremonies, and he personally gave the order for the firing squad to shoot.

The captain general has left here for Matanzas, Cardenas, Santa Clara and Cienfuegos. During the absence of Captain General Martinez de Campos from Havana. General Jose Arderius will act as captain general.

NICARAGUA TROUBLE SETTLED. Honduras Would Have Sent Soldiers to

Aid Nicaragua If Needed. LONDON, May 2 .- In spite of the statement which emanated from the foreign

office saying that there has been no change in the attitude of Great Britain towards Nicaragua, it is learned that Great Britain has agreed to the proposed settlement of her dispute with Nicaragua if the payment of the indemnity is guaranteed. In this case the British fleet will immediately withdraw from Corinto. It is not known what guarantee Great Britain demands for the payment of the indemnity, but it is believed in official circles that the affair is practically settled.

MANAGUA, Nicaragua, May 2.—The Hon-

duras government has given assurance to Nicaragua that her troops will be at the disposal of Nicaragua should they be necessary. This is the only tender of troops that has been made by the Central American governments, although the other republics have shown their interest and cooperation in other ways. The offer from Honduras is not likely to be accepted, owing to the present favorable turn of affairs, but at one time there was a prospect of concerted action by the forces of the two countries.

An Alleged Female Deutist in Trouble. FORT SCOTT, Kan., May 2.-At Hiattsville, a small village near here, over half a dozen people have been poisoned, some of them perhaps fatally, by medicine administered by a traveling woman dentist, who has skipped the town since the coudition of her patients became known. The victims are: Taylor Paxton, pastor of the Methodist church; Misses Myrtle Wallace. Nora Burtwell and Lizzie Liddell, and Mrs. William Clark. Miss Liddell is dying, and it is feared some of the others may succumb. The dentist traveled under the name of Dr. Alberta Oberlin, and advertised herself as a "painless tooth extracter of St Louis" In the dispatches which have been sent out asking her arrest she is described as "a large, remarkably handsome woman of stylish and prepossessing appearance."

Denying the Beef Trust Story.

Chicago, May 2,-Philip D. Armonr denies the assertion that a trust in beef exists, and that it is caused by a combina-Morris & Co. and H. H. Swift & Co., of Chicago. "It is perfectly astonishing," said Mr. Armour, "that this cruze is so widespread, and that there are so many believers that there is a beef trust. I say with all sincerity that Armour & Co. did not make any money in the beef business during the year 1894, and up to the present the year 1895 has proved equally bad."

#### Burned to Death in a Stable Fire.

WILMINGTON, Del., May 2.-Frederick A. Freeney, a 23-year-old colored man, was burned to death in the stables of the Wilmington Transfer company yesterday. The unfortunate man had evidently been askeep in the second story of the building when the fire broke out, and when he awoke he saw that escape by the front door was cut off. Again and again he threw the weight of his body against a barred window, but was unable to break through, and he perished in sight of hundreds who were powerless to help him.

Great Britain's Snub to China.

SHANGHAI, May 2.-The Chinese inhabitants of the Island of Formosa recently sent a deputation to the British representative there, urging him to request the British government to prevent the Japanese from annexing the island, and offering in return for this protection a large share in the profits of the Formosa mines. The matter was referred to the British government, which replied that it could not entertain the proposal.

EVERY JOINT IN HIS BODY RACKED BY RHEUMATISM.

Could Not Move His Arm and Was in Constant Pain-A True Story ot a Remarkable fore.

William F. Maier, 18 Park Place, Zanesville, Onin. writes: "About a year ago I had to quit work on account of rheumatism. I had the disease in my hip", back and arme, in fact, in every joint in my body. The pain was intense, and I suffered the most excruciating agony. Mydoctor could not do anything for me, and I tried every remedy that could be suggested; none of them did me any good, and finally my joints became stiffened and sore. At times I could not move my right arm, and was in constant pain. I procured a tottle of Munyon's Rheumatism Cure, and within a short while was completely cured. I am free from stiffness and pain, and can cheerfully recommend Munyon's Remedy as the bes. I have ever known."

DON'T TUB TOO MUCH.

Professor Checkly Advances the Idea That It is Injurious.

"Buthing and the use of soap," says Professor Checkly, "is 40 per cent more injurious to the human race than any other form of stimulation to which people are addicted. If I should bathe a man in proportion as much as he drank, I'd kill him in one-half the time. This is called the age of hurry and feverish excitement; critics complain that people are unwilling to take time for anything. As a matter of fact, hours of precious time are worse than wasted daily in the bathroom. If men would preserve their health, there are three things they must do-first, leave soap alone; second, get the skin loose from the tissues of the body; third, get rid of the idea that regularity in the matter of sleep and meals is necessary to physical well being.'

"What are the objections to the use of soap?" asked a reporter to whom the professor's original views were a reve-

"There are vital objections," was the reply. "The skin, it is acknowledged, bears a most important relation to the body. First, it acts as a protective agent, covering the sensitive tissues of the flesh. Second, it acts as the agent of the mind, conveying all sensations of heat, cold, friction and the like. Third, it directly aids all the other organs of the body, taking up the work of each in turn when for any reason they become unable to perform their functions. The skin assists all the organs of secretion and excretion in the entire system, and for that reason great attention should be paid to keeping it in a healthy condition. Although realizing its important functions, people, instead of protecting this wonderful covering of theirs, try by every means in their power to destroy it. Soap does not cleanse the skin. When the skin is dirty, it is unhealthy, and the organs within the body can never be cleansed by all the spaps in the world. The only stains, blots, etc., on the surface of the skin that people need to get rid of cannot be removed by soap. Some other chemical ointment or fluid has to be resorted to to obliterate them. As far as regards the dust and dirt which naturally adhere to the body, dust and dirt, being earthly and material, are much better brushed off than washed off, and soap does not aid in the process. "-Philadelphia Press.

MUTILATION OF DOGS.

Ear and Tail Cropping and the Operation Known as "Worming."

The fashionable mutilations to which the dog has been subjected are three in number-ear and tail cropping, and the strange operation known as "worm-Though the law prohibits the ing. 'i performance of the operations which lead to these mutilations, yet at least two of them are still carried out surreptitiously, and the third, "worming," may also be practiced. At any rate I have seen it done in my young days. It and the tail cropping can boast of a venerable antiquity, and they also had their raison d'etre in a superstitions belief in their efficacy in preventing madness or rabies. So long as the time of Columella, the Roman writer on agriculture, the mutilation of the dog's tail was a popular and favorite procedure. As he tells us in his "De Ro Rustica" that the shepherds believe that if, on the fortieth day after the birth of a pup, the last bone of its tail were bitten off. the sinew (believed to be a worm) would follow the piece, after this the tail would not grow and the dog could not become rabid.

This superstitious notion has prevailed for ages, and may still be entertained in certain quarters. However this may be, the fashi in of removing a portion of the tail of many breeds of dogs is onite common, and it it is done with a view to the prevention of madness, it is at any rate considered most desirable for these animals to have a short, blunt tail, because it improves their appearance. Some dogs have scarcely any tail left. I have seen grooms and dog funciers bite off puppies' tails as a matter of business, and some of these people have shown me a fragment of sinew attached to the amputated portion as the "worm in the tail."

It should be noted, in speaking of this fashion, that a mongrel dog has been termed a "cur" (Latin curtus, or croptailed,) because it usually had the tail' shortened, and according to ancient forest laws, a man who had no right to the privilege of the chase was obliged to cut off the tail of his dog, on the plea that, if a dog has no tail to act as a rudder, he cannot hunt game. - Nineteenth Century.

A Millionaire muraerer on trial.

UNION, Mo., May 2.-A jury composed entirely of farmers was finally secured yesterday to try Millionaire Dr. Duestrow, the St. Louis wife and child murderer, as to his sanity. James I. Blair, of Siddon & Blair, the attorneys who yesterday with drew as counsel for Duestrow, was the first witness. He had been Duestrow's father's laywer, and gave the old story of the alleged progressive insanity, describing the symptoms at the various stages. He considered the defendant insane. On cross examination the witness testified that Duestrow's ravings began soon after he was first seen by Dr. Baudy, who had been retained by the defendant's counsel as an insanity expert.

#### THURSDAY, MAY 2, 1895.

Senator Lexow introduced, yesterday, a bill legislating out of office the present State Commission in Lunacy, Dr. McDonald, Goodwin Brown and Henry L Reeves. The first named Commissioners receive \$3,000 a year and Mr. Reever, \$10 a day for the time actually spent in the performance of official duty. Mr. Lexow's bill provides for five Commissioners at a salary of \$5,000 a year each. The nominal purpose of the bill is to give New York and Brooklyn representation in the Commission, but this could have been accomplished without retiring to private life Messrs. Brown and Reeves, who are Democrats.

Matter demanding attention at this season is the condition of your blood. Your health depends upon it, for as the quality and quantity of the blood

vary, you are better or worse. The blood conveys all the elements which go to make up the organs, nerves and tissues of the body, and carries away all dissolved, useless material. Every bone, muscle, nerve and tissue, lives upon what the blood feeds to it. The whole world knows that Hood's Sar-aparilla is the standard remedy

for making pure blood. It possesses ment peculiar to itself and by which it effects marvelous cures even when other preparations fail. When you buy your spring medicine get the best, and that is

THE OLD LADIES' HOME-

Annual Recting at the Some for Aged Women-Officers Elected-Reports of the Secretary and freasurer.

The annual meeting of the Orange Ocuaty Home for Aged Women was held at the home on South street, this city, yesterday, members of the association from all parts of the county being present.

Mrs. S. R. Morgar, the secretary, made the following report:

THE SEVENTE REPORT OF THE ORANGE COUNTY HOME PUR AGED WOMEN

This month closes the eleventh year of our efforts to establish and maintain a home for worthy aged women of Orange county who, through failure in judgment, treachery of a trust ed friend or ingratitude of children, are found stranded and helpless when the weight of years will no l nger allow them to provide for themselves and who have earned and deserve a comfortable place for the remaining years of their life.

In our early struggle to obtain the means to provide this home, the need of such an institution in this county was met by some from whom we solicited aid with the query, where are you going to find your occu-pants? Te-day our building is inadequate. The annex is too old to warrant the expenditure of any more money to make more room; we all wish to abandon it.and make a grand effort to erect on its site a substantial. fire-proof building, which will be a nucleus to a greater bome. This would enable us to provide many additional rooms and more especially an infirmary, of which we are constantly in need.

Inspired by confidence and hope we appeal to the benevolent societies, to the natives of Ocange county, who have been prospered. wherever they may now dwell, to assist us. It is a abroad and liberal charity, appealing to all for approval and support.

Last year we received from Chestei's churches \$23.05; Washingtonville \$1216; Hamptonburg \$11.00; Hopewell \$8 42; Montgomery \$10.59; Walden \$6 65.

Within the past year two inca 's have been added and two have ole ). Our thanks are due to Dr. J. L Hanmer and Dr. D. B. Smiley who have served us so kindly and gratultously for the past two years.

Mr. and Mrs. Jarvis still continue with us in the faithful discharge of their duties cating for the internal affairs of the Home in a satisfactory

manner, The subject of enlarging our building has become an important

Mrs. Hattle Ogden Myers,

Mrs. Hattie O. Myers died at her home, No. 29 Mulberry street, at 12.23 o'clock, this morning, of spinal meningitie. She has been confined to her bed for the past three weeks, but has not been well for several months. In December she was taken sick and was confined to the house for nearly two months with what are now known to be the premonitory symptoms of the disease that caused her death.

Mrs. Myers died in the house in which she was born and married. She was a daughter of the late Thos B. Ogden, and was born Dec. 31st. 1814, and was therefore in her fiftyfirst year. She attended the public schools in this village and completed her education at Wallkill Academy. After leaving school she taught for a time at West Farms and then went to Yenkers, where she was a clerk in one of the city departments, until shortly before her marriage to William H. Myers, which took place on Nov. 26th, 1868 She resided in Yonkers until after her husband's death, which occurred on April 23 d, 1879, when she returned to Middletown and has since resided here.

In 1881 she took the position of bookkeeper and cashier in the store of G. B. Adams and retained her position in the establishment up to the time of her death. During all the years she had been with Mr. Adams she had been his most trusted emplaye. She deserved the confidence reposed in her. In this establishment she will be missed more than anywhere, except in her own home.

Mrs. Myers, when her husband died, was left with four children, all tittle girls, and her life's work has been to bring them up properly, and this she has done. They are an honor to her memory. They are Julia F, a dressmaker, Jennie, at home, Beatrice, bookkeeper for the Standard Oil Co., and Christine, who is attending the public schools.

Besides her children, Mrs. Myers is survived by two sisters, Rosamond of this city, and Mary, wife of Wm. G. VanKeuren, of Stamford, Copn, and two brothers. John T. Ogden, the well known harnessmaker, and Harry C., with J. T. King, the druggist. Her mother died in 1865 and her father in 1890.

Mrs. Myers was a regular attendant at Grace Episcopal Church, although not a member. Her life was beyond reproach. She won the love of intimate friends and the respect of all who made her acquaintance. She was loved in lif, and indeath she is mourned; not only in her nome and in the great establishment in which she was employed, but in the community as well.

#### TO FORM A NEW STATE

SERIOUS PROPOSAL TO CREATE THE COMMONWEALTH OF "SUPERIOR."

Michigan, Minnesota and Wisconsin to Contribute to Its Territory-Would Be One of the Richest In the Union, Especially in Minerals.

It is seriously proposed to create a new state by taking a part of the three states of Minnesota, Wisconsin and Michigan, which will be known as the state of "Superior," or "the Mineral State." This idea is a feet of the state of the state of the state. the new state plan so often repeated, and its creator is Captain Alex Mo-Dingail, the inventor of the whaleback

Captain McDongall would cut out a territory bounded on the north by Canada, on the west by the Mississippi river, on the south by a line draws from the Mississippi river along the southern boundary of the northern tier of Wisconsin counties and terminating at the extreme tip of the upper peninsula. Of course the eastern boundary line would lie in the lakes, but that is immaterial to the plan.

What is aimed at particularly is to place the three great fron ranges—the Vermillion, the Mesaba and the Goge

CAPIAIN ALEX M'DOUGALL.

bic-in one stare, so that the interests of none of them could be injured by conflicting legislation and all might be treated from the same basis.

Should the new state, which would be the forty-fifth of the Union, be considered at all it would have the additional advantage, the captain thinks, of solving the difficulties of long standing between Duluth and Superior, for, both cities being in the same state, their interests would be in the main almost identical. At least there would be no state line to vex and complicate their relations.

Duluth and the northern part of Minnesota have no interests in common with the rest of the state. Wi-consin, is can truthfully be said, hears the same relation toward Superior and the northern portion of the state, and as for the upper peninsula it is not either from a commercial or geographical point of

view, a part of the state of Michigan. The new state would be one of the richest in wealth in the Union. It would have more than 500 miles of water front and contain "the head of the lakes" harbor, which is the gateway for the trade and commerce of the entire northwestern country. "Superior." or "the Mineral State." would at once become one of the greatest states of the Union, it is firmly believed by its advocates.

Agration of the subject will begin immediately throughout the three commonwealths involved, and the representatives in the several legislatures who come from the territory immediately involved will after their adhesion is seenred begin making political combinations in order to effect their purpose. The new state would be strongly Republican, a qualification which would secure at a respectful hearing from the present congress.—Chicago, Times-Har-

A Bowler Makes 300- La Ten Frames David Hoffman of the Berkeley Bowiing club of Newark, N. J., made a score of 300 in ten frames with regulation pins on Harry Montgomery's alleys recently. He was engaged in practice with William Weingarth, who made 244, and Emanuel Lowerstein of the Chevalier club, who made 219, Montgomery says that it is the first time he has ever seen 300 made since the present standards have been established, and he has been in the bowling alley business since 1876.—New York Sun.

To Prevent Train Robbery.

The Southern Pacific is considering methods for preventing train robbery, but thus far no feasible plan has been found. It is thought the beat would be to place the expresseur in the middle of the train, thus making it difficult to detach is from the remainder of the train.

"Matron of a Benevolent Home and knowing the good Dr. Miles' Nervine has done me, my wish to help others, overcomes my dislike for the publicity, this letter may give me. In Nov. and Dec., 1893, The inmates had the "LaGrippe," and I was one of the first. Resuming daty too soon, with the care of so many sick, I did not regain my health, and in a wouth Ibecame so debilitated and nercous from sleeplessness and the drafts made on my vitality, that it was a question it I could go on. A dear friend advised me to try Dr. Hiles' Restorative Nervine.

I took 2 bottles and am happy to say, I am in better health than ever. I still continue Its occasional use, as a nerve food, as my work is very trying. A letter addressed to Milwaulice, Wis., will reach rae." June 6, 1834. MRS. LAURA C. PHOENES.

during their stay. If you are incurable they will tell you; therefore invalids must not take offeree if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor can-not give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you If incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

"Chris," as his Giends call him, owns more truck norses than any other man in the city. He also owns a stock farm in Poughkeepsie. He recently invited one of his friends, Fred Gebrey, a banana importer, to visit his country place. Mr. Gebusy accepted, and both men started for the Grand Central station in a buggy. Chris drove.

Chris, be it said, sported an immaculate shirt frout, in which glittered a large diamond. The friends were bowling along Fifth avenue when Chris, who was smoking a cigar, suddenly started. He had seen a lady friend, and the impropriety of saluting her with a cigar in his mouth caused him to let the weed drop, as he thought, to the bottom of the buggy.

The Largest Medical Libracs. A writer in the Washington Star says that the largest and most complete medical library in the world is the collection of medical works located in the Army Medical museum, in that city, under the care of the surgeon general's office of the war department and the immediate supervision of Dr. John S. Billings, U. S. A. It may be said that the card index system of medical publications used by the library is the most thorough and practical index of medical works in the world. The library now includes about 112,000 bound volumes and about 150,000 pamphlets. It is estimated that this collection comprises three-fourths of the medical literature of the world, and at least nine-tenths of the medical literature which has been published within the last ten years.

It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend-

#### Castoria.

Castoria is an excellent medicine for chilfren. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood, Lowell, Mass.

Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other burtful agents down their throats, thereby sending them to premature graves."

# It is Injurious To Stop Suddeniy

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

Dear Sirs—I have been a tobacco flend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being at least I tried the so-called "Keeley Cure," "No-To-Bac." and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreclates. has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly.

Eureka Chemical & Mig. Co. La Crosse. WisDear Sirs—I have been a tobacco fiend for
thirty-three years and during the past two
years have used chewing tobacco very extensively. My nervous system being affected considerable. I have often triad to give up the
use of tobacco, but always failed, until I
bought three boxes of your "Baco-Curo." I
used tobacco at the same time while taking
"Baco-Curo," and after a week I lost the
appetite for tobacco—smoking or chewing. I
am enjoying better health, and consider your
"Baco-Curo" the safest, most harmless and
reliable remedy for to break the tobacco habit.
Yours truly,

Gentlemen—Last summer I furnished Mr
James Reul. of the town of Burnside, Trempea-lean Co., with three boxes of your "Baco-Curo."
He had chewed tobacco for over forty years and the last year used over sixty-five pounds
He commenced using "Baco-Curo" and one box did not have the effect, when he had used about one-half of the second box, he began to lose his taste for tobacco, and when he had used one-half of the third box he had lost all his appetite for it, and is now entirely cured.

Yours truly, J. C. TAYLOR, Druggist

#### TO WHOM IT MAY CONCERN.

This is to certify that I. William S. Sawyer of Atmatic. County of Cass. State of Iowa, having been an inveterate smoker of tobacco, bought three Loxes of "Baco-Curo" Dec. 21, 1894. Began taking same according to directions and can say that I am completely cured of the tobacco habit. "Baco-Curo" is simply wonderful and I recommend it to all who are larger to the tobacco. What I will know to the wonderful and I recommend it to all who are slaves to the tobecco habit and wish to be cured. I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remain, Yours truly,

WM. S. SAWYER, Atlantic, Iowa.

Clayton, Nevada Co., Ark., Jan. 28, 1 95. Eureka Chemical & Mig. Co., La Crosse, Wis.

Gentlemen—For forty years 1 used tobacco
in all its forms. For twenty-five years of that
time I was a great sufferer from general debity
and heart disease. For fitteen years I tried
to quit, but couldn't. I took various remedies,
among others "No-To-Bac," "The Indiar Tobacco Antidote," "Double Chloride of Gold,"
etc., ctc., but none of them did me the least bit
of good. Finally, however, I purchased a box
of your "Baco-Curo" and it has entirely cured
me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains
of body and mind. I could write a quire of paper upon my changed feelings and condition.

WHAT MR. KRAEMER SAYS OF "BACO-CURO."

This is to certify that I. F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of eigarettes for more than two years.

About eight weeks ago I hought three boxes of "Baco-Curo." I began taking it according to directions, and after taking one and one-half boxes, all the desire for eigarettes left me, and I

have had no desire since. I can heartily recommend "Baco-Curo" to all who are slaves to the cigarette habit or tobac-

I can heartily recommend "Baco-Curo" to all who are slives to the eigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes. I could not remember anything; could not sundy, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craving for eighteetes in me and save your young life. Restore voirself to manhood. You will feel as though you had excaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the mainter with me, until informed by the agent. He told me what was the reason brould not do anything unless under the hidus nee of the death-dealing poison found in cigarettes. I due not believe him at first, until he explained the action on the system.

The hought she goods and thank God and all concerned, I am a sound person to-day. Hoping the this may reach the uniortunate eighrette.

EX-SENATOR RICHARDSON'S VIEWS ITT An the Proposed New 11th Exchange-Not in the Interest of the Farmers-4 Plan That Would Protect the Farm

Late yesterday afternoor, an Argus reporter stumbled upon ex-Senator William P. Richardson, of Goshen, who was to this city on business. "How do you de. Senato?" said

Lie reporter. "Very well, thank you; how's the

incus many" After a few moments' conversation, the Senator said: "By the way, I ee that your paper does not have much to say upon the question of the proposed new milk exchange."

·We have been unable to get a Iull report of the meeting and the proposed plan of organization," said the reporter, "and therefore have not had much to say upon the sub-.sect. The ARGES readers, however, Benator, would like to know your Flews on the question. Will you kindly give us your opinion of the project?"

In reply the Senator said:

"Oa general principles, I am in Cavor of an amalgamation of the inverests of farmers and dealers, but only on a basis of equal representa-

"The plan proposed at the meeting held in New York. April 29th, was to form a company of \$25,000 sapital stock, in shares of \$20 each, and offer \$13,500 of the stock to the Tarmers. The \$25,000 to be invested in real estate in New York city and all income from the investment to be cumulative. No dividends to be paid and an assessment of two dollars per share to be made annually on the stock. The amount received from this assessment to be used coward the running expenses of the erchange.

"I am opposed to this proposition for various reasons, the principal one being because there is nothing In the plan that gives equal reprezentation in the Board of Directors to the farmers, there being nothing to prevent the dealers acquiring more than one-half of the stock, and thereby electing a majority of the Board of Directors. Another reason is that there would be a continuous assessment without any part of the income from the investment being applied to the payment of dividends on the stock.

"In lieu of the proposition made, I would offer the following:

First-That one-half of the stock should be held for purchase by farmers who have no interest directly or indirectly, in any creamery or the sale of milk.

Second—This stock when sub-scribed to be placed in the hands of Board of Trustees selected by the mtockholders, and no share of it to be sold or disposed of without the consent of a majority of the Board of

Third—An equal share of the Board of Directors of the exchange to be elected by the farmer stockholders of the exchange at a meeting held for the purpose, when stockholders Ban vote either in person or by

Fourth-A resolut on to be passed by the stockholders that in case any director whom they may elect voting against the interests of the farmer, his position as director may be declare; vacant upon the written reoguest of two thirds of the farmer -stockholders.

"I believe that if these ideas are carried into effect, the interests of the farmer will be protected as nearay as it is possible to do so, and upon that basis I would be willing to subzerabe for stock and use my utmost ecceavor to harmonize conflicting Interests."

& call has been issued for a meetang of farmers at the Goshen Court | ing at 7 30 o'clock. House, Saturday, when the plan of organization adopted by the New Tork meeting will be discussed and subscriptions to the stock of the probesod exchange will be solicited.

PAINE'S CELERY COMPOUND MAKES VIGOROUS NERVES.

Its Purifies the Blood as Nothing Else

Can Possibly Do. As a spring remedy, Paine's celery compound stands easily first in the careful judgment of the physicians of this country.

This remarkable discovery of Pr f. Edward E. Phelps, M. D , LL. D , of Dartmouth College, is in fact so certainly first in the estimation of thinking men and women in every calling throughout the United States to-day that there can fairly be said to be no recond.

For strengthening the sick, restoring the spent energies of those who have become nervously exhausted, for purifying the blood and making people well, Paine's celery compound has never yet been approached by any sarsaparilla, tonic or nervine It is as superior to them all as strength is superior to weakness. The remarkable results from the use of this great remedy are today let my people know and receive their known at first hand in every city and village in America.

The people are to-day thoroughly satisfied by personal experience that Paine's celery compound makes pecple well.

Where the nerves have not been properly fed and neuralgia, nervousness, inability to sleep, rheumatism and such evidences of debility have entered, Paine's celery compound has created a new appetite, restored lost strength and given courage, new blood, and a strong, healthy will to live and get well. Try it.
